## POTASH PLANT IN ACTIVE OPERATION

SEARLES LAKE COMPANY PRODUCING POTASH FOR NEEDS OF GOVERNMENT

Victor Barndt returned last night from Searles Lake, where he met John Ryan and C. B. Zabriske, of the Pacific Coast Borax company, to inspect the new potash plant. This plant is being built by the Pacific Coast Borax company and the Solvay Process jointly on patented lands owned by the borax company. The first unit is just completed at a cost approximating \$500,000 and is now on its trial run. It is turning out potash successfully and within 30 days is expected to work up to a capacity of about 50 tons a day of nearly pure potash salts suitable for powder making and chemical purposes. As quickly as possible the capacity of the plant will be increased to 500 tons a day.

## WOLFTONE EX. MINE ON ASSESSABLE PLAN

HERMAN ZADIG FINANCES AN OLD PROPERTY ABOUT TO RESUME WORK

The Manhattan Wolf Tone Extension is about to resume arrangements having been made with Herman Zadig to finance the company and put it in shape for an extended run. S. A. Haskell, superintendent of the Umatilla and Miller Mountain companies will visit Manhattan tomorrow for the purpose of suggesting what machinery is necessary to enable the company to go into a campaign of deep development. The Wolf Tone Extension lies in the gulch below the Wolf Tone and is famous as the ground from which "Dry Wash" Wilson took his big earnings. It is also close to the Breyfigle and below the Mustang and Thanksgiving. Originally the company was floated by Allan Mackay, of San Francisco. The plan of reorganization is to issue one share of stock in the new company for one share of stock in the old company, conditional on the payment of one cent assessment. The shaft is down to a depth of 90 feet and is well timbered for that distance.

## Y. M. C. A. OFFERS AID FOR ARMY WORK

TENDERS TRAINED FORCE AND FUNDS TO TAKE UP WELFARE WORK

(By Associated Press.) NEW YORK, April 4.—The Young Men's Christian Association has organized its forces and is prepared to offer the services of 500 trained men and to spend \$3,000,000 in welfare work for the army and navy in the war. The proposed welfare work will follow closely along the lines of the Y. M. C. A. stations established in the camps along the Mexican border.

## FRAUDULENT PASSPORT

(By Associated Press.) NEW YORK, April 4.—George Bourne, formerly of Wilkesbarre, Pa., was arrested upon a charge of fraudulently obtaining a passport from the United States consul at Hull, England.

An adlet in the Bonanza is the best investment.

## SALOONS CLOSE ON GOOD FRIDAY

GOOD FRIDAY WILL BE OBSERVED STRICTLY BY EVERY HOUSE IN TONOPAH

For the first time in the history of a mining camp Good Friday will be observed strictly by the saloonkeepers of Tonopah, who have resolved to close their places of business between the hours of noon and 3 o'clock. This resolution was adopted at a meeting of the proprietors of the leading liquor establishments and after the matter was further discussed every man in the business subscribed to the agreement. This means exactly what it says. There will be no back or side door open and the man with a thirst must wait until late in the afternoon to secure liquid refreshment.

This action speaks highly for the saloon men of the camp, as it expresses deference to the sentiment of the church-going people on this anniversary of the most solemn event in Christian history.

## DOG QUARANTINE HAS BEEN RAISED

STATE QUARANTINE OFFICER LOOKING AFTER STRAY DOGS RELEASED FROM DUTY

Officer Gholsan, who was appointed state police officer to enforce the quarantine against dogs running at large, has been notified that his services are no longer required, as the danger of rabies, if any ever existed, has passed away. The order came last Saturday and dogs are now privileged to run at large without either muzzle or leash. It has been suggested that the best way for the town board to abate the nuisance of having the town infested with curs is to pass an ordinance providing for a license of \$2.50 for each male and \$5 for each female dog, and then see that the ordinance is enforced.

## ALL DIVISIONS

(Continued from page one)

of combating the submarine menace;

The raising of a very large sum of money as much as possible to be obtained by taxation, and the definite amount of the first budget not to be fixed until the exact needs of the army and navy and of the entente allies are ascertained;

Purchase of supplies and equipment of all kinds for the army under a provision of law which allows the secretary of war to fix a "reasonable price"; and,

Division of the young men of the country into service classes, those needed more in industries than in the army or navy to receive insignia showing they are performing duty equivalent to fighting.

The council of national defense, composed of Secretaries Baker, Daniels, Wilson, Houston and Redfield, following a conference with its advisory commission, decided to name soon a commercial economy board to organize the commercial interests of the nation for effective distribution of food products.

In line with the president's suggestion to Congress in his address that the present generation bear as much of the financial burden as possible, the ways of providing money under consideration included increasing the excess profits taxes, lowering the minimum for exemptions and increasing the super tax under the income tax law, increasing internal revenue taxes on some articles, and placing stamp taxes on some articles not now included. The general idea is to place taxation most heavily on those best able to pay.

It is realized, however, that some of the necessary funds will have to be raised by bond issues in the form of popular subscription loans. It was estimated by one cabinet member that \$10,000,000,000 in small interest loans can be quickly raised in the United States.

Maximum and minimum age limits for the first call are fixed in the administration plan, but will not be made public until presented to Congress. In recent discussions a minimum of 18 years and a maximum of 23 years have been mentioned.

Standardization of the munitions industry will be one of the first direct steps taken under direction of the national defense council. A continuous and adequate flow of weapons and ammunition of all kinds will be insured, not only for the American forces but to the entente armies.

Bids were opened at the war department for 16-inch rifles to go in the coast defenses. The Bethlehem Steel company was the only bidder, offering two or four guns complete at \$225,000 each. These guns are part of the new coast defense program approved by Congress a year ago.

## IMPROVING ROADS TO TYBO MINES

Ott Heiser, managing engineer of the Louisiana Mining company, accompanied by Commissioners Davis, Lindsay and Douglas, left on one of the company's autos this morning for the purpose of examining the roads between Tonopah and Tybo. After this the county will decide what must be done in the way of improving transportation facilities for the Louisiana company, which is hauling much machinery and supplies between here and Tybo. The hauling is all done by auto trucks and trailers. The Louisiana company has made a proposition to the county to share the cost of making the improvements and there is no doubt but that this will prove acceptable.

## TUNGSTEN COMPANY RESUMES BUSINESS

BIGGEST PRODUCERS OF THE BLACK METAL ANNOUNCE RESUMPTION OF MILL

The Atkins Kroll company has given orders to get ready for business as quickly as possible at the plant and mine in and near Sodaville. The company closed both branches of the industry about six months ago when the depreciation in tungsten deprived them of profits. The resumption is said to be due to the sudden and increased demand for tool steel consequent on orders from the U. S. government. The company employed about 150 men when running in full force.

## CABLE CONNECTIONS WITH RUSSIA ARE IN DANGER

(By Associated Press.)

COPENHAGEN, April 4.—The breaking of the second cable connecting Copenhagen with Great Britain is confirmed here. Only two cables now remain, one of which is devoted entirely to Anglo-Russian business. The newspapers here are urging the resumption of the wireless service which existed at the beginning of the war.

## MILLIONAIRE FINED FOR TRAPPING DUCKS

(By Associated Press.)

ALBANY, N. Y., April 4.—Henry C. Phillips paid the state \$15,000 in settlement of fines against him for illegally trapping wild ducks at his estate at Wantagh, Long Island.

In connection with the army plans it was pointed out that under the present national defense act the national guard can be brought to its full war strength by draft. The force has an authorized total strength of 440,000, and its present strength is about 160,000.

Orders to muster out men with dependent families and those in the government service or at work on government contracts, may reduce this number considerably.

In any event, if the guard is to be recruited to full strength, it is assumed that provision will be made to prevent a conflict between that service and the new national army to be raised. Probably recruits for the guard will be sought among men excluded from the new service by age limitation. The new army undoubtedly will be formed of young men.

The authorized strength of the regulars is about 100,000 men of all branches. That service, unless a change is made in the law, would be filled up with volunteers, men who wish to engage in soldiering as a professional organization.

## ELKS APPOINTEE OFFICERS NAMED

Arthur Keenan was installed last evening as exalted ruler of the Tonopah lodge of Elks and the other officers took their new stations with the customary ceremonies. After the ritualistic features had been observed the company sat down to a banquet in honor of the occasion and during the discussion of the good things of life placed before them the surprise of the evening was sprung when a sterling silver card case, beautiful chased in gold, was presented to Fred Penn, the retiring exalted ruler. Mr. Penn tried to express his thanks but he could not find words to show his sentiments. He will leave in the morning for Surf Inlet to assume the position of superintendent of the Canadian Belmont company mill.

During the evening the new exalted ruler announced the appointive officers as follows: Esquire, Mark R. Averill; chaplain, D. J. Fitzgerald; inner guard, L. O. Melior, Ike Bair, deputy district exalted ruler, accompanied by a party of Goldfield Elks, motored over from that camp after adjournment of the special session of his home lodge and joined the Tonopah brethren in celebrating. Tonopah will visit Goldfield Thursday night.

In addition to the installation the lodge also resolved itself into a patriotic meeting and passed the following resolution which was wired President Wilson and the Grand Exalted Ruler Edward Rightor, at New Orleans, as follows:

"Be it resolved that Tonopah Lodge No. 1062, B. P. O. E., does hereby pledge its full support to the president of the United States in carrying into effect all acts of Congress approved by the president necessary to uphold and maintain sovereignty of this nation and the honor and integrity of our country."
